Intranet Review

ClearBoxCONSULTING

INTRANETS | COLLABORATION | SHAREPOINT

If you're re-thinking your intranet strategy or looking to improve the value that your intranet brings to your organisation, then it can be invaluable to have an external perspective. ClearBox's Intranet Review is a comprehensive business-focussed analysis of your intranet that leads to a clear vision of what your intranet could do for your organisation and how to get there.

WHAT IS THE SCOPE?

Your intranet is assessed against a range of criteria (pictured below) to understand both **strategic and operational performance**. The analysis uses a reference framework of over 120 separate aspects of a successful intranet, based on ClearBox's extensive experience in the field.
